

Leyland New and Used Open Day 2019

16/05/2019

Dear Colleagues,

On 14th and 15th May, STILL UK held a second New and Used Open Day at our Leyland depot. We welcomed our customers, distributors and dealers to enjoy our world-class products which we showcased in our Leyland workshop.

The primary focus of the event was of course our used equipment but we also showcased new trucks and conducted seminars for neXXt fleet, TruckCam, Li-ion, Thorough Exams and FleetManager™. As always, there was an enormous amount of interest in our electric trucks – a product range which we are so very proud of.

After enjoying some light refreshments our guests were free to browse our products inside and outside at their leisure.

The event was wrapped up at 4pm and we achieved a total of **52 units sold**.

Thank you to everyone who made this event happen and to the organisers and presenters for working so hard throughout the 2 days.

We look forward to seeing these orders come through over the next few days and plan to hold the event at our Exeter HQ in September 2019.

With best wishes,

Christina Warn
UK Marketing & Communications Manager
