Side view

Top view

The height-adjustable lifting platform enables convenient and ergonomic order picking

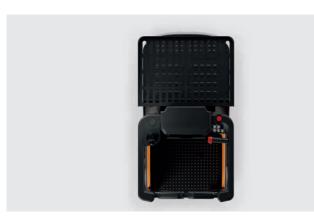

Intuitive operation: two-hand operation gives you precise control of goods and truck at all times

Thanks to its working height of up to 4.6 metres, the OCV is also extremely well suited as a replacement for ladders or mobile scaffolds

Safely navigates in confined spaces thanks to its compact dimensions

See the vehicle even before it is there: a blue spot is projected onto the ground in the direction of travel by the STILL Safety Light

Always ready to use thanks to lithium-ion battery as standard and a charger that fits any 230 V socket

High availability thanks to integrated charger

The doors lock automatically as soon as the stand-on platform is raised off the floor - this enables you to work safely even at great heights

Compact dimensions enable use in the tightest spaces

Always ready for use thanks to lithium-ion battery with integrated charger

Optimal protection for operator and environment thanks to features such as the STILL Safety Light

Work on a safe stand-on platform at heights of up to 4.6 metres

Safer than any ladder and more practical than any mobile scaffold: the OCV is the perfect truck for working at heights of up to 4.6 metres, for narrow aisles and for anyone that wants to pick orders up to the third racking level.

The extendible stand-on platform lifts you up to a standing height of 3 metres, which means an effective working height of 4.6 metres. You can transport 110 kg on the multifunctional truck's storage platform and 90 kg on the lifting platform. The lifting table can also be flexibly raised by up to 50 cm, which gives you optimal ergonomic access to your goods at all times. Thanks to its compact dimensions, you can manoeuvre the OCV easily and safely in even the tightest spaces.

And it's always ready to go whenever you need it: a lithium-ion battery that can be interim charged quickly and the appropriate charger are integrated as standard. As soon as the stand-on platform starts to lift, the doors of the driver's platform lock automatically, so that you are optimally protected. This also applies for your environment: the OCV is fitted with the STILL Safety Light as standard: a blue spotlight projected on the floor in front of the truck gives other people in the warehouse early warning that the truck is coming. Whether in the small parts warehouse, in DIY stores, in archives, building management applications or at events: the OCV allows you to work safely, ergonomically and effortlessly at all times!

The 'Simply Efficient' factors: Performance attributes as a measure of economic efficiency

🍅 Simply easy

- Safe and easy operation with no driving licence required
- Interim charging at any 230 V socket thanks to lithium-ion battery and integrated charger
- Low access point enables the operator to effortlessly board and exit the truck

G Simply powerful

- Load capacity up to 90 kg on the lifting platform and up to 110 kg on the transport platform
- Lifts operators and goods effortlessly and safely to a working height of up to 4.6 metres
- Driving speed of up to 6.5 km/h

🔊 Simply safe

- The STILL Safety Light increases safety for everyone in the warehouse
- Safe manoeuvring even at great working heights thanks to automatic adjustment of the maximum speed
- Automatic locking of the door protects the operator when the standon platform is raised
- The stand-on platform can also be lowered by a second person from floor level

Simply flexible

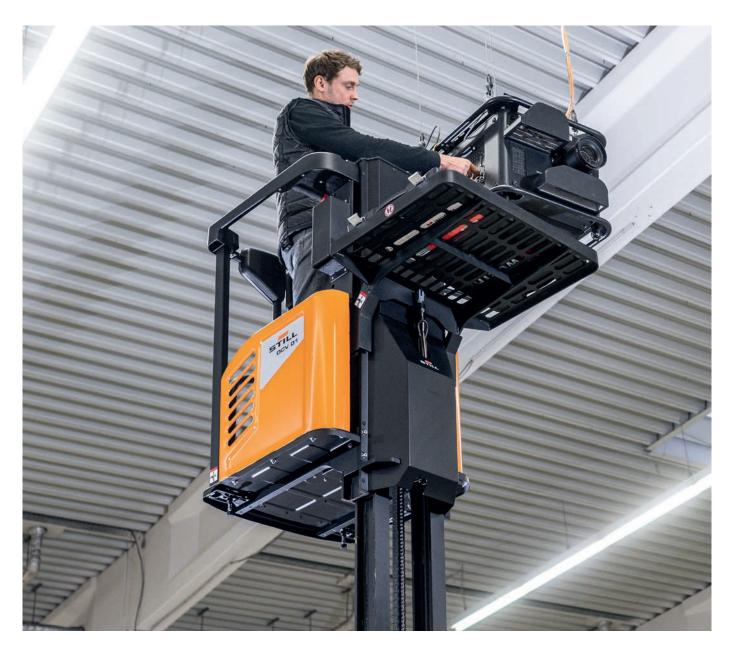

- With a total weight of just 800 kg, the truck is ideally suited for use on mezzanine floors or in lifts
- Secure storage space thanks to storage options such as cup holders and document holder
- Suitable for order picking work from the floor up to the third racking level
- Range of possible applications from small parts warehouses through to a ladder replacement in building management or the events industry
